CAR-REP®

automotive products

Genuine Quality only

Car-Rep makes no compromises in quality. We use exclusively acrylic binders and pastes of car refinishing OE quality, as the only aerosol paint manufacturer in Europe.

Car-Rep products offer a very short drying time, more glossy and wear resistant surface.

The coverage of the Car-Rep paint is extremely high. Therefore you can paint much more than with the traditional synthetic or nitro spray paints. On top of that the gloss of the paint is the same than in OE car paints and the surface is resistant for solvents, such as petrol and white spirit.

Car-Rep products are manufactured in Helsinki, Finland in the most modern facilities.

- Professional quality
- Specialized production with modern production equipment and techniques
- High quality level in color and composition
- No differences between production batches
- Wide and deep assortment
- Complete line-up with repair and maintenance products
- Innovative packaging and composition

CAR COLORS (ORIGINAL TOP COATS)

Car-Rep CarColor system is offering genuine quality and precise matching of cars original top coat. No compromises in quality, acrylic binders and pastes of car refinishing OE quality. Car-rep CarColor offers a very short drying time, more glossy and wear resistant surface.

Exact color match due to innovative color chart address system. CarColor system includes several original automobile paint colors under one reference number (6-digit), which are identical in color but which gives up to 150 different OE car coat matches with one product only. With the unique software the line-up is always kept up-to-dated.

Select either from 180 colors or 360 colors line-up. Carefully selected color

line-up covers offers the best possible stock turnover and excellent customer satisfaction; 180 line-up covers over 60% of total demand and 360 line-up over 80% of total demand and offers triple up to six times higher stock turnover compared to conventional line-ups.

PRIMERS

RUST PRIMERS

Car-Rep Rust Primers offer a very short drying time, excellent coverage and a smooth surface to apply the coating on.

We recommend Car-Rep universal acrylic paints or CarColor paints as top coating.

1K SPRAY PUTTY

Car-Rep 1K polishable acid primer/putty is a one-component primer also perfectly suited for polishing. The primer contains strong rust protection, has good adhesion and coverage properties, and can be painted over with most car paints, incl. water-based paints. Weldable!

PLASTIC PRIMER

Primer for plastic surfaces. Due to strong adhesion the primer can be applied to hard-plastic parts of vehicles. Before priming check the suitability of the primer on a small surface area. Primer could be painted over with any Car-Rep aerosol paint.

Product	ART. NR

ZINC SPRAYS

Zinc spray is ideal to repairing and color matching minor damage to galvanized steel surfaces. Particularly for protecting welding seams, drilling holes and other areas for metal corrosion. Suitable for any car repair jobs, fixing damaged zinc surfaces, covering drilling and welding points and any anti-corrosive applications

Zinc DIN 50.976/cold galvanising zinc is a quick-drying and durable anti-corrosive agent for any metal. Conforms to the requirements of DIN 50976 standard. Zinc aerosol active ingredient contains 95% pure zinc and 5% synthetic resin.

Zinc DIN 50.976/cold alu galvanizing zinc is a quick-drying and durable anti-corrosive agent for any metal. Conforms to the requirements of DIN 50976 standard. Zinc alu aerosol active ingredient contains 95% pure zinc and 5% synthetic resin.

Product	ART. NR

HEAT RESISTANT PAINTS

Car-Rep heat resistant paints are easy-to-use aerosol paint with a heat-resistance of up to +600 °C is suited for the external surfaces of exhausts, boilers, chimneys and grills and vehicle dampers and similar objects, the operation temperature of which does not exceed +600 °C.

Do not forget to cover nearby surfaces during painting! After application let the surface dry at +20 °C for 30 minutes. Painted surface achieves its final properties after 60 minutes of heating at +200 °C. When several layers of paint are used the surface should be also heated in between applications.

Product	ART. NR
HEAT RESISTANT PAINTS	
Heat resistant 600 white 400 ml	CR01090
Heat resistant 600 silver 400 ml	CR01091
Heat resistant 600 black 400 ml	CR01092
Heatresistant red 400ml	CR01093
Heat resistant 600 clear coat 400ml	CR01094

BRAKE CALIPER PAINTS

Heat resistant sportive effect painting for tuning up brake calipers and brake disc centers and drum brakes on all kinds of cars and motorcycles. Bright colors give a sporty outlook especially in connection with aluminum sport rims. For optimal preparation of your painting clean the brake calipers with Brake Cleaner and brush the object clear from rust. Priming with Car-Rep Primer or Rust Primer is recommended.

BACK LIGHT PAINTS

Transparent spray paint with special plastic primer is suitable for application on numerous transparent objects, which you want to give color still keeping the transparency when you want to keep transparency and the structure of the object. Please note that the use in registered street vehicles in back lights or windows is in many countries not allowed.

Brake Caliper Spray blue 400 ml	CR01065
Brake Caliper Spray yellow 400 ml	CR01066
BACK LIGHT PAINTS	
Backlight black 400 ml	CR01024

PROTECTIVE PRODUCTS

STONE CHIP SPRAY

Car-Rep is a waxy protection agent for your car's door and skirting panels. Also suitable as a protector during storage of machines and metal parts. It forms a resistant elastic protective coat against stone chipping. It is also suitable for use as a damping substance in wheel cases and chassis bottoms.

BITUMEN SPRAY

Car-Rep Bitumen spray is a quick-drying bitumen-based protector for your car's chassis. It is malleable and hard-wearing, and provides excellent protection against rust.

HOLLOW SECTION WAX

Car-Rep Hollow Section Wax effectively protects vehicle bodywork cavities particularly susceptible to rust such as doors, side panels, boot lids, bonnets etc. Rust can be prevented if applied regularly with a thin coat being enough to protect metal.

The sealer has excellent water repellent and penetration properties. Once applied, a light sticky film appears with self-regenerating properties that can also be used to protect the engine compartment. In addition the typical smell associated with conventional waxes, once the coat has been heated by the sun or the engine, is not present.

WAX COATING

Car-Rep wax coating wax is effective and highly adhesive rust protection for treated and untreated undersides. A resistant protective coat forms once it has dried which is resistant to weather, grit and acids. Does not damage plastic, lacquer or rubber.

Prefill 1K male valve	CR02002
Prefill 1K female valve, adjustable nozzle	CR02003
Prefill waterbased, female valve	CR02004
Prefill 2K, female valve	CR02006

TECHNICAL SPRAYS / CLEANERS

GREASE OFF

Car-Rep Grease Off is a detergent for car brakes and brake parts. Effectively loosens and removes dirt, grease, brake fluid and other impurities from brake shoes, drums and pads, as well as other brake parts.

SILICON

Car-Rep Silicon is a protector and lubricant for interior and exterior car surfaces. Suitable e.g. for rubber and plastic seals. Forms a clear protective coating on the treated surface to prevent crumbling and freezing. Also suitable for polishing plastic and leather surfaces.

COLD DEGREASER

Cold degreaser is a highly effective aid to remove severe rust from joints e.g. screws, nuts, bolts and crankshafts.

Special components create a short-term "cold shock" on the rusted tools, which shrinks them and makes it possible for the lubrication to penetrate.

GLASS CLEANER

Car-Rep Glass Cleaner is designed for washing car windows, windscreen, mirror and lanterns. This slightly foamy detergent removes dirt, insects, salt, bitumen, soot, smoke and grease stains from the exterior and interior surfaces of your car.

ELECTRO PROTECTOR

Car-Rep Electro Protector is a high-quality cleaning agent and lubricant for electrical equipment. Efficiently cleans all sorts of electronic devices. Thanks to its low surface tension, it leaves a smooth, thin protective layer on the treated object. Does not damage rubber or plastic parts.

Product	ART. NR

Grease Off 500 ml	CR01250
Grease Off 4 l	CR01255
Grease Off 10 l	CR01256
Grease Off 20 l	CR01257
Grease Off 200 l	CR01258
Silicon 400 ml	CR01200
Cold degreaser 200 ml	CR01234
Glass cleaner 400 ml	CR01521
Electro protector 400 ml	CR01203

TECHNICAL SPRAYS / LUBRICANTS

PENETRATING OIL

Car-Rep Penetrating Oil quickly penetrates the most microscopic gaps, efficiently loosening rusted parts from each other. Makes it quicker and easier to loosen and unfasten rusted or oxidized screws, nuts and bolts.

GRAPHITE PENETRATING OIL

Car-Rep graphite penetrating oil reduces friction and enables tight bolts or rusted parts to be unscrewed easily. The product is fast working, efficient and flows and works its way around objects such as screws – even going against gravity. Enriched with graphite, it offers improved lubricating properties. Does not damage metal, rubber and numerous plastics.

MULTI 20 PROTECTION OIL

Car-Rep Multi20 protects, lubricates and removes moisture. Suitable for protecting machinery, equipment, etc. during storage. Removes moisture, leaving a fairly thick moisture barrier. Effectively prevents corrosion. Also suitable for light lubrication of industrial, agricultural and household machinery and equipment. Used regularly, Car-Rep Multi20 helps to lengthen the useful life of the treated device.

DRY LUBRICANT

Car-Rep MOS2 is a dry lubricant for use in assembling and running in machinery and equipment. The quick-drying MOS2 sticks very well to surfaces, preventing seizing at the running-in stage. Retains its lubrication ability even under high loads. Does not collect dust or dirt. Ambient temperature -200 °C .. +345 °C.

Product	ART. NR
TECHNICAL SPRAYS	
Penetrating Oil 400 ml	CR01204
Graphite penetrating oil 400 ml	CR01238
Multi 20 protection oil	CR01239
Dry Lubricant	

TECHNICAL SPRAYS / LUBRICANTS

PTFE LUBRICANT

Car-Rep PTFE is a handy all-purpose spray lubricant. Thanks to its fine-grained consistency, Car-rep PTFE penetrates even the most microscopic gaps. Efficiently lubricates locks, valves, controls and various sliding surfaces, conveyors and roller tracks. Reduces wear and tear due to friction in moving parts. Ambient temperature -55 °C .. +250 °C.

VASELINE SPRAY

Car-Rep Vaseline Spray is a reliable lubrication that also protects metals such as aluminum, copper, brass, chrome, steel etc. from acids, lyres and salt. For example to be used in lubricating and protecting antennas, plug-in connections and bolted connections and locks.

SYNTHETIC VASELINE SPRAY

Car-rep synthetic vaseline is synthetic and transparent universal grease applicable for diverse use of lubrication. Penetrates efficiently. Ambient temperature -40 °C - +200 °C Resistant for mechanical wear. Synthetic Vaseline Spray is a reliable lubrication that also protects metals such as aluminium, copper, brass, chrome, steel etc. from acids, lyres and salt. Examples of use bolts, hinges, plug-in connections and bolted connections and locks.

MULTIOIL

Multi-functional oil universal oil. Effectively fends off moisture and prevents problems with engine start ups caused by moisture build up in the separator. Easily oils the linkages, joints and cables. Also removes rust from seized bolts and the like. Helps to prevent circuit disruptions and oxidation in electrical equipment. Conforms to the requirements of Mil standards: Mil-C-16173E and Mil-C-22235.

Multioil 400 ml	CR01206

TECHNICAL SPRAYS / SPECIALS

COLDSPRAY

Car-Rep ColdSpray is a useful aid in installation and dismantling jobs where very cold temperatures must be achieved quickly. Non flammable, safe in use. Suitable for use in checking circuits, and fastening or fitting small bearings, bushings and spindles. it is also excellent for identifying electronic and mechanical faults. Provides powerful, quick cooling down to -55 °C. NB! Never spray onto skin: risk of hypothermia.

AIRSPRAY

Car-Rep AirSpray efficiently blows away dust and loose dirt. Non flammable, safe in use. Very useful for cleaning electronic and optical devices. NB! Not suitable for camera mirrors.

LEAK TEST

Car-rep Leak Test helps to find leaks quickly in hoses, pipes, joints and seams. Bubbles visibly at the leak. Particularly suitable for checking liquid and gas pipelines, as well as air ducts. Car-Rep Leak Test is non-flammable. How to do it: Spray directly onto object to be checked. If the object has a leak, it will be visible immediately due to bubbling.

Product	ART. NR
TECHNICAL SPRAYS	
Coldspray	CR
Airspray non flammable 300 ml	CR01240
Leak test 300 ml	CR01235

TECHNICAL SPRAYS / SPECIALS

ANTI SEIZE

Anti-Seize Spray is 100% Synthetic is specially developed for extreme high temperature lubrication and high temperature damping. It is constantly stable at high pressure, reduce Friction and prevent seized, Prevent from stress crack on rust steel, working temperature from - 60°C to +1,100°C and is an excellent anti-corrosion agent. Application areas; Anti-seize for O2 / Lambda sensor, spark plugs, muffler nut, clutch, bolt & nuts, sleeves & etc. Eliminates squeal noise on disc and drum brake, lubricate brake caliper, brake piston & etc.

TAR SPRAY

Car-Rep Tar Spray provides an effective protection against jamming and corrosion. Also suitable for treating vehicle body and wheel nuts, rims, suspension parts of trailers, etc.

PAINT REMOVER

Car-Rep Stripper paint remover is an efficient, non-dripping paint remover suitable for almost all paint types. Removes

effectively also varnishes, glues and concentrates. Spray onto the surface to be cleaned and let it take effect for 5 - 15 min. If necessary, use a metal spatula and/or repeat the procedure. NB! Can damage plastic surfaces.

DE-ICER

Car-Rep De-Icer is an aerosol agent for removing ice from your car's exterior glass surfaces. Also efficiently melts the ice from the windscreen. For optimum results: Remove snow from the window. Spray the agent uniformly with horizontal movements. Leave it until the ice has melted. Remove melted ice using windscreen wipers or a brush.

Product	ART. NR
