

## ORIGINAL CAR COLORS

### MATERIAL

### HARDNESS

**CAR-REP® CAR COLORS** are made of acrylic binders and pastes of car re-finishing OE quality. Car-Rep Car Colors offer a very short drying time, extremely high gloss and wear resistant surface.

The coverage of Car-Rep acrylic spray paint is extremely high and therefore you can paint much more than with the traditional spray paints. The surface is resistant to chemicals, such as petrol and white spirit. The coating is very hard and gives an excellent protection for wear and stone chips.

The colors match exactly with the original color of the car. Car-Rep Car Color System is based on intelligent software which gathers together databases of paint manufacturers, car makers, popularity of colors and sales statistics. It creates a unique line-up of the most running car colors with perfect match to genuine colors. Search for the right color of your car at: [WWW.CAR-REP.FI](http://WWW.CAR-REP.FI)
